

## TROUBLE GETTING PARENTS OUT?

Try one of these!

**“If I could wave a magic wand and make all this go away, would you want that? We both know I don’t have a magic wand, but we do have a model system designed by over 500,000 parents with kids just as tough as yours. You will be working with other parents struggling with the same issues. You won’t be alone. We promise to deliver the support you need and concrete solutions for every problem you face raising this child. Give us 24 hours. I promise it will change your life.”**

**“No other parents in history had to deal with internet pornography, sexting, FaceBook, hidden apps on cell phones, cyber-bullying, today’s gang problems, or such ready availability of drugs and alcohol. When it’s tougher to be a kid, it’s tougher to parent. It’s time for us to catch up and know as much as our kids do. This class will show you how to protect your child from the serious damage media is doing and intervene in any unwanted behavior. Let us help you.”**

**“Your (son/daughter) is not the average child, and most parents would not know how to deal with (his/her) behavior. The things you may have done with your other children are not working with this one. I know why. You need a new set of tools. This class is different. It teaches the skills we need for parenting difficult children. If your child had seizures, you would surely get training on how to deal with that. This is no different. Let me help you?”**

**“Good results take effort. Sometimes we need to do things we don’t like to do, to get results we desperately need. Going to the dentist, working out, and scooping the dog poop is not fun, but it’s worth it. Our class won’t hurt or smell bad, but it will change your life. Are you ready for that change?”**

**“As a parent, you have more power to change your child’s behavior than all of the psychologists, counselors, teachers, principals, probation officers, cops, pastors and priests, combined...if you learn the techniques. The class I’m pushing you to attend will teach you the special skills necessary to deal with your child. Would you rather choose one night a week for the next ten weeks, or ten more years of trauma, drama and frustration?”**

**“I understand how you feel. Your child did the crime and I’m asking you to do the time. We’ve been doing this a long time and learned that the only person in this room capable of bringing about a lasting change in your home and child is YOU. You are the miracle worker. You are the one with the power. Let us show you how to use it. Give us 24 hours. I promise it will change your life.”**

**“If you think this is going away on its’ own, you are wrong. Your child is likely to bring back their broken marriages, ongoing drug problems, drama and GRANDCHILDREN for you to raise. Are you ready for that?”**

**“Do you know any grandparents raising their grandchildren? They too thought their children would eventually change, outgrow it or rethink their behavior. They were wrong. You are too. This class was specifically designed for YOU. It is the best thing you can do for yourself and your children. Give us 24 hours, I promise it will change your life.”**

## **STILL NOT WORKING . . . DON’T BE AFRAID TO PUSH**

- **The average college class is 48 hours. The average high school class is 80 hours, and that does not include time for homework. Why do we believe we can learn to be a better parent, the most difficult job in the world, in less time?**
- **“When you are ready to fix all this, let us know.”**
- **“When you are sick and tired of being sick and tired, we can help you.”**
- **“If you choose not to join us, I can almost guarantee this will get worse.”**
- **“I just want to be sure that I understand what you are saying. You’re telling me your child is not worth 24 hours of your time. Is that right?”**
- **(For probation officers) “I understand. We are all busy people. You call me every time your child slams a door or refuses to listen to you. I am offering you a bandage here, something that will stop the bleeding, but you refuse to take it. If you are not willing to let me help you, please stop calling. You can always call me if your child is violent, starts breaking things or commits another crime, etc., but that’s about it. If you change your mind and choose to join us, I promise I will be there for you and we will talk often. Let me know when you are ready.”**
